Allan Edwin Dyer

AUG 23, 1923 - JAN 26, 2019

Michael V Mcrae posted:

I am so very proud and happy to have had the opportunity to work with Dr. Allan Dyer during those tumultuous years when the Ontario Ministry of Health was developing various drug benefit programs. After working in the pharmaceutical world for some years, I came to the Ministry of Health where Dr. Dyer and I worked hand in hand to overcome the many challenges, including legislative work, that laid down the foundation for the ODB program in Ontario. I greatly admired Dr. Dyer as he was a warm hearted person who would always be there to advise and help when the issues needed a fresh outlook. He made me a better person and through his personal know how and experience allowed me to achieve my own success story. I am hopeful that this message of love and respect will somehow reach his wife, Natalie and the Dyer children as I truly believe that I have lost a true and valued colleague.
