“ George I miss you so much!! I pick up my phone to call you and realize you are gone. I have so many great sports memories attending Phillies games. You could tell me the score of any Nebraska football games, what years they won national championships, and who the coaches were. I love how the weather was one of your passions. I was always fascinated with your charts of the hurricane season, tracking the storms, and marking the wind speeds and barometric pressure. YOU HAD SUCH A GENEROUS SOUL!
